days; posted rates, \$4.88@4.891/2; commercial Silver certificates, 64@65c. Bar silver closed at 63%c per ounce; at London, 29%d. Total sales of stocks yesterday amounted to 276,500 shares, of which 130,200 were in American Sugar Trusts. The operators in Sugar, who have been engineering the recent advance in these shares, took occasion

this morning to give the shorts a little squeeze. The time was propitious for the venture, as there were some good buying orders on the exchange, and few, if any, sellers. The opening quotation, as recorded, was 1051/20106, the purchasing being too brisk to allow of the intervening prices to be obtained by the official reporters. Heavy blocks of the stock were readily absorbed, the buying being encouraged by renewed assurances from Washington to the effect that refined sugar would be properly protected. When 10614 was touched there was some realizing, causing a reaction to 104%. The lower figures induced fresh buying, and an advance was made to 107%, which was 2% per cent. above the closing figure of Saturday. In the final dealings there were sales to realize profits, which sent the price down 1% per cent., leaving a gain on the day of 1%. The preferred stock sold up 214, to 9714, reacting % per cent, at the close. Chicago Gas was affected unfavorably by the report that an application by the company for an injunction to restrain the Attorney-general of Illinois from bringing the

quo warranto suit had been denied. A rumor was also current to the effect that the Mutual Fuel and Gas Company would be given a franchise to extend its mains into the territory of the Chicago Gas Comon the shares, which brought out some long stock and sent the shares down 2 per cent. A rally of % per cent. took place during the afternoon, of which % was lost, in the final trading, the decline from Saturday being % per cent. Chicago, Burlington Quincy was pressed for sale in the early lealings on reports that the rate of dividend would have to be reduced, owing to decreased earnings. The delay in publishing the March statement, which is overdue, gave color of truth to the report, and on this the stock declined 114 per cent. Supporting orders from Boston were recleved, which, together with local buying, caused a rally of 1%, the final sale being made at a reaction of %. St. Paul did not sympathize with the weakness of its sister stock, being held very firmly during the morning, even making a fractional improvement. During the afternoon there was fairly good buying in the shares which sent the price up 11% per cent. from Saturday. In the final sales a reaction of % took place. The other grangers were inactive, but Northwest made a gain of 11% and Rock Island 14. Insiders bought Western Union, sending the quotations for the stock up 11/2 per cent. After an opening decline of 3/5, the improve-

when a reaction of % occurred. National Lead rose 2 per cent. on buying, induced by good tariff news and by a belief that a dividend will be declared next Saturday. Realizations caused a loss of 1 per cent. on the advance in the final trading. American Tobacco rose 2% in the morning dealings, then broke 4% on liquidating sales, closing within % of the lowest point touched. The general market was steady to firm during the greater part of the day on a very limited volume of business, but closed rather heavy, although most of the active stocks show advances on the day of a fraction. Laclede Gas, preferred, went down 2 per cent. and Toledo & Ann Arbor and New

ment was maintained until near the close,

York & New Haven each 1. Phoenix rose 1% per cent. The railroad bond market was steady in the morning and strong in the later dealings, the main changes being: Advances-Louisville, Evansville & St. Louis consolidated fives, 21/2; Chicago & Northern Pa-cific Trust firsts and Cincinnati, Dayton & Ironton fives, 1 per cent. each. Declines— Lake Shore, divisional sevens, 1½. Louis-ville & Nashville, New Orleans & Missis-sippi seconds sold at 104 against 101 on April 4. Missouri Pacific thirds sold at 112

LOCAL GRAIN AND PRODUCE. Week Opens with a Good Trade-Few

Changes in Values. The warmer weather has improved trade. This is more marked with dry goods and millinery houses than in other lines. On Commission row there is also an increased activity. Prices on fruits and vegetables are well held. Larger receipts of tomatoes and strawberries and lower prices are looked for before the week is out. The egg and poultry markets are steady. Receipts of butter are large and prices low. Much of it is poor stock. The future of the wool market is still a problem. Careful inquiry fails to get any encouraging information as to what prices will be, other than that they will be lower than last year. In Kentucky dealers are now buying wool 3 to 5 cents per pound lower than on May 1, 1893. The provision market is stronger and a good movement is in progress in a jobbing way. The seed market is fairly active; prices unchanged. The hide market is active, prices ruling steady at the same range of some weeks past. Other markets are without

Fought Over Coxeyism. William Lambert and John Anderson held an exciting dispute over the merits of Coxevism vesterday morning on Washington street, between West and Missouri streets. In a warm moment Anderson called Lambert vile names, whereupon the latter smacked him with such force that Anderson was spread widely in the gutter. Anderson recovered himself, sought patrolman Leppert and had Lambert arrested on a charge of assault and battery.

ALL CEREALS FIRMER

After a Weak Opening, the Demand Caused a Substantial Gain.

Oats Clique Worked Another Squeeze on the Shorts - Provisions Fell Under Heavy Receipts of Hogs.

CHICAGO, April 30 .- Wheat, after about fifteen minutes of weakness at the start, became firm to-day, and ended with a gain of 4c. After a month's steady liquidation of May wheat it is to be presumed that the last bushel has been sold out which the holders were not prepared to take and pay for if tendered to-morrow. Corn averaged weak and closed 11-16c lower for July and 4c lower for May. In the oats market the shorts in May became aware that the manipulators were not quite done with them, as is indicated by an advance of 1c from %c decline which occurred at the opening. Provisions closed strong after weakness at the start.

An increase of 2,696,000 bu of wheat on passage, favorable weather in at least two of the Western wheat-growing States-Kansas and Nebraska-and dull and weak foreign markets caused a dull opening of the wheat market at 1/3c decline. The same influences caused a further depression of 1/4c for May and 1/sc for July. A recovery soon followed when it was found that the demand for May wheat was more pressing than the orders to sell. The New York clearances were liberal and helped to confirm the stronger feeling which had sprung up. The improvement continued until July reached 60% 60% c. The spread between May and July fluctuated irregularly between 2c and 2% c. For an hour before the close the price kept within 1-16c of 60% c for July, and May during the same time was at a discount of 202% c.

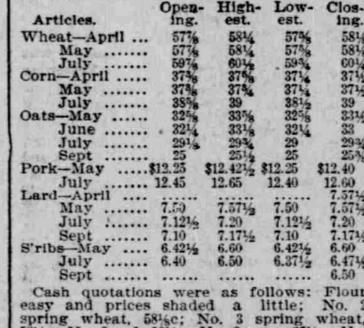

Corn was very dull until after the visible supply statement gave evidence of showing supply statement gave evidence of showing a considerable decrease in stocks during last

week. After that had been confirmed, the feeling became rather easier again, but in the meantime an early decline of 1/2c in May and 1/3c in July had been nearly all re-covered. The principal business of the day was in the way of changing May contracts over to July. Oats started somewhat easier in sympathy with wheat and corn and continued to

follow in the wake of those markets during mand for May was quite good, but little for sale. Some strength was developed and May sold from 32%c, the opening price, to

Everything traded in speculatively in the provision pit opened lower than Saturday's closing prices, owing to the receipts of hogs being 6,000 over the estimates. The weakness gave place to steadiness and that to strength when it was found that Swift & Co., who appeared willing to take all the offerings at the opening prices, continued to bid for stuff, even after the market had advanced materially. Trade was extremely dull after the first hour of the session, but the firmness continued.

Estimated racelpts for Tuesday are: Wheat, 105 cars; corn, 520 cars; oats, 430 cars; hogs, 18,000 head. The demand for vessel room for oats was fair at 1%c, but agents asked 14c. The rate on wheat was 14c and corn 14c. Charters for corn to Kingston, 3c. Leading futures ranged as

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore and Other Points. MINNEAPOLIS, Minn., April 30.—April May and cash wheat closed %@1/2c higher, while July was only 1/20/4/2c higher and September 1/4c advance. The demand was active for cash wheat and for Monday the receipts were small, amounting to only 123,-420 bushels, 21,120 bushels being shipped out, leaving a small decrease in the local supply. Closed: April and May, 60%c; July, 61%c; September, 60%c; on track, No. 1 hard, 63%c; No. 1 Northern, 62%c; No. 2

Northern, 60%c. The largest mill in the city was shut down, and for that reason the demand for grinding was decreased about 20,000 bushels. The reason of the mill's closing down was the inability of the milling company to move grain on the tracks of the Great Northern where this mill is situated. The flour market was steady with a probable output of about 24,000 barrels for the twen-ty-four hours, quoted at \$3.40@3.60 for patents and \$2@2.40 for bakers'. Flour ship-

ments were 25,405 barrels.

The Market Record says the receipts of wheat for the past week in Minneapolis and Duluth were a little more than half what they were a year ago. Country elevator stocks decreased approximately 310,000 bush-els for the week; 153,000 bushels comes from the largest elevators and 175,000 is estimated to have been shipped from the smaller lines and independent elevators throughout the country. The stocks of wheat in Minneapolis private elevators decreased 13,647 bushels, and now amounts to 904,353 bushels exclusive of the small supplies carried in mills. The amount of wheat in the large lines of elevators in the interior is 3,506,000 bushels. Nearly as much more is supposed to be in independent houses and in elevator lines of smaller companies. The Great Northern road last week brought in practically no wheat, while for the same week one year ago they shipped in here 530 cars, which was nearly one-third of the whole which was nearly one-third of the whole number of cars received. This year, if that road had been in operation, it would have brought in more grain than all others combined, as it is on that line that most of the wheat is now held in the country. The total supply of wheat in the Northwest, including flour, is now 29,193,920 bushels, against 39,488,741 bushels last year at this time.

New York Tribune. In nominating William D. Owen for Secretary of State the Republicans of Indiana have placed in the field an exceptionally strong candidate. Mr. Owen represented the Logansport district in Congress for two terms, despite the fact that it usually gives a Democratic majority, and as chairman of the completee on immigration he per-formed excellent service in reforming the raws on this important subject. In recognition of his work President Harrison appointed him superintendent of immigration when that office was created. This position he filled in a highly satisfactory manner, particularly to the workingmen of the country, by whom Mr. Owen has always been highly esteemed. He is a man of clear views, positive convictions, unblemished character, and with the requisite ability to fill any office to which he may be called with credit and distinction. His election
